

In the Specification:

Page 1, before line 3, the paragraph beginning with "The present invention" replace the title TECHNICAL FIELD with the following titles and paragraph:

-- PRIORITY CLAIM

This is a U.S. national stage of application No. PCT/KR2003/002818, filed on December 23, 2003. Priority is claimed on that application and on the following application(s): Country: Korea, Application No.: 38143/2002, Filed: December 23, 2002.

FIELD OF THE INVENTION --

Page 1, before line 11, replace the title "BACKGROUND ART" with the following title:

-- DISCUSSION OF RELATED ART --

Page 5, the paragraph beginning at line 10 delete and replace with the following paragraph:

--However, in the sprinkler head according to another embodiment of the conventional art, since the locking groove 126 is formed at the end of the lower side of the second housing 104, the locking unit 114 composed of the locking ring 124, the first loading plate 120, and the second loading plate 122 is entirely protruded from the lower surface of the ceiling 106. According to this, the height H that the locking unit 114 is protruded from the ceiling 106 is increased correspondingly. Also, since the intervals among the first, second, and third heat collecting plates 152, 154, and 156 are comparatively wide, the height H becomes greater.--

Page 6, before line 10, delete the title "TECHNICAL GIST OF THE PRESENT INVENTION" and replace with the following title:

By Express Mail # EV528956982U · December 1, 2004

-- OBJECTS AND SUMMARY OF THE INVENTION --

Page 6, line 24, delete the title "DETAILED DESCRIPTION OF THE INVENTION".

Page 8, line 13, delete the title "MODE FOR CARRYING OUT THE PREFERRED EMBODIMENTS" and replace with the following title:

--DESCRIPTION OF THE PREFERRED EMBODIMENTS--

In the Abstract

Insert attached sheet adding Abstract after the claims.
